Faromed – bringing light into medicine!

“Faro” means beacon or lighthouse, “Med” is the short form of Medicine. That is what Faromed stands for: light in medicine.

We are proud to be one of the leading companies in the field of medical lamps and lighting. More and more customers decide to work with us because of our unique situation. As a manufacturer for all kind of medical diagnostic equipment we know very well the problems of the device and instrument side. In addition we have a long tradition in development and production of special miniature lamps for medical and other purpose. The knowledge of both parts gives us an advantage which we use to serve and support our customers on perfect way.

Christian values like customer orientation, self-reliance, authenticity, mutual and trustful cooperation and reliability are guidance for our company and our relationships.

We offer the complete range of lamps for medical purpose as there are:
